

Client TeamViewer Download

1. Copy and Paste the link on your web browser
https://download.teamviewer.com/download/version_14x/TeamViewer_Setup.exe
2. TeamViewer download will start
3. After the download is complete, navigate to the file and click the installation file that was downloaded. (This will usually be on your downloads folder)
4. TeamViewer installation guide will launch
5. You can select basic installation and choose Personal/ Non-commercial use when prompted with options.
6. Select Yes if you get a notification that says “Do you want to allow this app to make changes”
7. The installation will begin shortly
8. After completion, run the TeamViewer application and contact Welgaard
9. A Welgaard contact will test the connection and add your workstation to our company list.
